Woodland Hill Montessori School

COVID Policy September 2022 – Updated February 2023

Mask Friendly

COVID Positive
Isolate day 0-5
Return with mask days 6-10 (if fever free for 24 hours and other symptoms are resolving)
CDC Isolation Guidance

COVID Exposure
Masking for 10 days is recommended
Rapid Antigen (at-home) test on days 6 & 8 (provided by the school, while supply lasts)
CDC Exposure Guidance

Symptomatic
Test before coming to school (rapid antigen, PCR, or saliva)
*Individuals who have symptoms of respiratory or gastrointestinal infections, such as cough, fever, sore throat, vomiting, or diarrhea, should stay home, regardless of COVID test results.*
If positive, isolate immediately and follow CDC Isolation Guidance
If negative on a rapid test, and well enough to attend school, test again 48 hours after the first negative test, for a total of at least two tests. (Repeat testing is not required for PCR and saliva tests.)
FDA Instructions on Repeat Testing

If there is known exposure and the individual is symptomatic, a PCR or Saliva test should be taken before returning to school.
**CDC list of COVID Symptoms**

- Fever or chills
- Cough
- Congestion or runny nose
- Headache
- Sore throat
- Nausea or vomiting
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- New loss of taste or smell
- Diarrhea
